ABOUT THE INSTITUTE

The main functions of the Training and Research Institute under the Prosecutor General's Office of Mongolia are to conduct research works related to scientific issues and supervision of prosecutors and to organize training for prosecutors and staff.

CONCEPT

An integrated training system has been created to organize training following the Criminal Code and Law on Infringement and contemporary trends of legal reforms. The concept of training and research has been approved by administration policy to determine the main and priority areas of research to be carried out by the prosecution service, in order to improve the methodological knowledge and skills of prosecutors and staff, and to increase the quality and effectiveness of research works.

OUR VISION

To get a leading position among the judiciary and law enforcement agencies by creating a standard training and research system suitable for them.

OUR MISSION

- Develop prosecutors and staff with the professional skills to secure human rights and justice in the strict implementation of the Criminal Code and Law on Infringement when applying the law precisely.
- Improve the quality and effectiveness of the research work of the prosecution service by introducing advances in science, technology, and innovation.
